Additional Details (Optional)	The County has a system to report on unduplicated counts of children and families served through its home visiting programs. It does not require that level of data management for its other investments. Additionally, there is no way to know if children that benefited from the IMPACT quality improvement efforts are also served through another direct service programming, Given that, we believe that actual unduplicated counts are within the 50% margin of the figures on the AR-2.
